SUMMARY

After dedicating over 12 years to running diverse businesses, I am transitioning into a career as a Front-End Web Developer. Over the past year, I have focused on mastering modern web development technologies, including React.js, Next.js, Redux, React Query, and Tailwind CSS through hands-on projects. I am eager to contribute to a team with my dedication, problem-solving abilities, and strong understanding of user-centric design to build responsive, scalable, and user-friendly web applications.

TECHNICAL SKILLS

- **Front-End:** React.js, Next.js, Redux, React Query (State Management), JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
 - **Back-End & Tools:** Supabase, Node.js, Git
 - **Core Concepts:** Responsive Web Design, RESTful APIs, State Management, UI/UX Principles,
 - **Soft Skills:** Problem-Solving, Project Management, Agile Development, Presentation, Negotiation, Marketing
-

PROJECTS

Hotel Booking Admin Panel

- **Live Demo:** <https://wild-oasis-for-employee.vercel.app/>
- Designed and implemented a comprehensive admin interface featuring CRUD operations and an analytics dashboard for efficient data management.
- Utilized reusable components (Modal, Menu, Table, Filtering, Sorting, Pagination) to enhance development speed and maintainability.
- Features include robust authentication, dark/light mode toggle, and a Supabase backend for data persistence.

Hotel Booking (for Guests)

- **Live Demo:** <https://wild-oasis-home-stay.vercel.app/>
- Developed a secure hotel booking web application using Next.js, Supabase, and Tailwind CSS.
- Implemented user authentication with NextAuth.js and optimized for SEO and performance with server-side rendering.
- Enabled users to browse, book, edit, and cancel reservations, demonstrating full CRUD operations for bookings.

Fast React Pizza

- **Live Demo:** <https://16-fast-react-pizza-seven.vercel.app/>
- Built a fully responsive online pizza ordering application using Tailwind CSS for styling.
- Implemented features such as cart management, order lookup, GPS location integration, and robust form validation.
- Utilized Redux Toolkit for efficient state management and React Router for seamless data handling and navigation.
